Click "Twinkles" Time, Temperature

Granite City Trust and Savings bank's new, electronic time-and-temperature clock today was "twinkling" out the hours and the mercury readings.

Dominating the Edison avenue facade of the bank building, the recording device spells out, in lights, the time of day—or night—and the temperature.

It is connected with a rooftop thermometer and is able to run the temperature gamut from a high of 110 to a low of -30 degrees.

Bank officials hope it won't be called upon to perform at these extremes. Job of installation is expected to be completed this week.

until their situation was brought to our attention. They deserve community consideration."

Another case mentioned by the Salvation Army leader was that of a "highly respected" family which has won a recognized place for itself in the community. The children are leaders in school, and are immaculately neat and clean.

Disabled Father
Due to the father's disability, the monthly income for the seven members of the family is \$230, out of which the rent must be paid.

"Here again," Mrs. Walker marked, "these folks deserve help and respectful attention of the community, and the Salvation Army is privileged and happy to bring them something of a merrier Yule than they might otherwise be able to have."

She admitted there are the so-called "professional moochers" among basket applicants, but made clear that attempts are made to cull them out, and give to the deserving.

Atty. Randall Robertson, who is chairman of the "Tree of Lights" fund-raising campaign, today urged all those who wish to give to act now to send in their donations to the Salvation Army headquarters at 1421 Nineteenth street, Granite City.

Additional help is possible, he pointed out, through giving to the coal collection kettles in mid-town Granite City.

"The need is great, there are those in near-destitution deserving of help, and the community response to the appeal should be generous, and I know it will be," he asserted.

He joined with Capt. Walker in urging:
"Let us help to spread the gladness cheer of Christmas as far as a front as possible within the limitations of our abilities. Let us make it indeed a Merry Christmas for all."

GC Man Seeks Change In Levee Board Laws

Petitions calling for the state legislature to designate at least two trustees of the East Side Levee & Sanitary District board be residents of the Madison county portion of the district are being circulated in the Quad-Cities area.

Frank Lakatos, a former city employee, is handling the circulation and said the petition forms will be obtained from the printers this week and should be available now. He has set a goal of 10,000 signatures and plans to present the petitions to the legislature by mid-January.

Lakatos, who lives at 2941 Pershing avenue and is an auto salesman, said he also is circulating candidate petitions in a bid for the office of Granite City township assessor.

He is seeking assistance in circulating the levee board membership petitions and is requesting interested local residents to contact him at his place of business, 1905 Madison avenue.

"You might say Madison county residents in the levee district are being taxed without representation," he commented, pointing out he is compiling figures on the amount of taxes paid to the district by townships in Madison and St. Clair counties.

"Figures for 1957 show that Granite Cityans paid almost as much taxes to the levee district as property owners in East St. Louis," he added.

It was brought out the county will be forced to pay costs

of a special election in April with no means of raising funds to pay the amount.

A suggestion was made that if district justices of the peace are to be elected as county judicial officials, the election might be conducted in June 1959, the date of the next judicial election.

Briggs is to send a letter of protest to the state legislature asking financial relief or a change in the law. Copies also are to be sent to the Illinois Association of County and Township Officials.

FREDMAN BROS. AFTER CHRIS

Prices Slashed on Fredman Bros. Christmas Overstock

During the past few months there have been some layoffs and strikes in the Granite City area. Therefore, even though we have made special credit arrangements for anyone that has been affected by the lack of work, we have not sold the quantity which we prepared for and which we normally would have expected to sell. This has left us in a heavily over-stocked condition and we cannot depend on our regular after-Christmas Clearance, which would normally start on Dec. 27, to move out this extra stock. Therefore, we are starting our 'After Christmas Clearance Sale' twelve days earlier. All merchandise will be marked down 30% to 60% just as if it were after Christmas but you can still have it delivered in time to give as a Christmas gift. You can't afford to pass up these outstanding values.

Dr. Kaiser Predicts 13,000 Students Within 3 Years

Within three years, 13,000 students will be enrolled in Granite City district No. 9 schools and basic facilities may be available for only 10,000, although over 11,000 are being accommodated.

This is the prediction of Dr. Harold Kaiser, district superintendent of schools, who addressed the Granite City Kiwanis club Monday night at the Elks club.

Dr. Kaiser said the biggest problem facing the board of Education is the "spiraling enrollment."

In the past 10 years, Dr. Kaiser said, more than 6,000 new students have been added to district schools. Of the 11,000 youngsters, from five to 20 years old, 2,000 are transported by bus.

Dr. Kaiser went on to say that the cost of feeding the large number amounts to an annual figure of \$20,000.

"Schools are big business," Dr. Kaiser added. "More than 655 employees, including teachers and workers, are on the district payroll."

Based on a recent inspection by state school officials, the district is listed as having many healthy situations. The inspection group found students well-mannered and eager for education, he related.

The district teaching staff was rated comparable in training to college level staff, with 207 teachers having bachelor degrees, 88 possessing master degrees and 50 with doctor degrees. Only 17 of the 476 teachers have no college background.

The inspection group also was impressed with the remedial reading classes, language laboratories and the district's attempt to meet the needs of all children. Also, it was found that children are being well prepared for college or industry, the club was told.

Public Support
The inspectors pointed out signs of maximum effort in support of schools in the district and a good community for activities of all young people. They stressed that regular courses are available to children one or two grades sooner, in preparation for advanced courses.

Dr. Kaiser said the board of education was lauded for its

present policies of making all purchases by the bidding system.

Gary, Ind., assistant superintendent before his move here two years ago, he called Granite City the "happiest community I've ever seen in."

His speech was followed by a question-and-answer session. About 25 members heard the talk.

In earlier business, the club made plans for the annual Christmas party. Wives will be invited to the party, which will begin at 7 p.m. Dec. 19 at the Elks club.

George Chapman, a retired member, was the only guest.

700 Christmas Baskets Will Hearten Quad-Cityans

Christmas baskets, laden with staple foodstuffs and the good things of the season, as well as children's toys and playthings, will go out next week to make more gladsome the holidays of hundreds of Quad-City families for whom the Yuletide would be an otherwise bleak, heartless occasion.

These baskets come from welfare agencies, clubs, churches, lodges, workers' groups, veterans' organizations, the Salvation Army and individuals, and go into homes to provision the Christmas table.

Too, they make certain that Yule stockings of the young don't hang empty and are tangible expressions of community concern for the needy, the unemployed, destitute, neglected and isolated.

Total number of these well-filled baskets to go into homes is difficult to arrive at. But the number will be upwards of 700 and possibly a ways beyond, since no count is available as to the scale of giving by all organizations and individuals.

Clearing Center Operating To avert duplication and to insure that no deserving, needy family group is overlooked, the Christmas basket clearing center has been set up at the Salvation Army's Christmas Cheer headquarters at 1824 State street.

At this co-ordinate center, agency lists of prospective recipients of Christmas baskets are checked to prevent overlapping in giving. In this way, it is hoped, an equitable distribution of baskets will be possible.

Capt. Mildred Walker of the Salvation Army, in charge of the center, said she had on file applications for Yule baskets which would be happy to turn over to individual or group donors. Names of such worthy, deserving families will be obtained by authorized, responsible persons by calling the headquarters, Tlunge 6-2854.

Over 500 Applications Yesterday, Capt. Walker had before her something over 500 personal, family applications for 1964 Christmas baskets. This, she believes, is something of a record, and the number will be pared to something over 400 for Salvation Army distribution.

Funds for the baskets are derived in the main, from the Salvation Army's "Tree of Lights" campaign collection held on 10th street, and personal contributions. Canned goods to fill the baskets are being collected by the Eagles Lodge 1126.

Distribution of the Salvation Army's 400 Christmas baskets will begin a week from today.

Capt. Walker explained the procedure.

Families in Venice who are to receive baskets should call for them at the Venice City hall between 9 a.m. and noon on Thursday, Dec. 22.

Madison families who are to get these Yuletide presents should obtain them on Friday, Dec. 23, at the Madison City hall. Distribution will be between 9 a.m. and noon. Capt. Walker explained.

Those of the Granite City area who are to be recipients of Christmas baskets should call for them between 9 a.m. and noon on Saturday, Dec. 24, at the Granite City hall. Distribution will be between 9 a.m. and noon. Capt. Walker explained.

All those who are to get baskets will be advised by distribution time.

Varying in size and content to meet the needs of individual families, each basket will have a retail value of from \$15 to \$20.

And what will the recipients find in them? Mrs. Walker said each will carry dressed chicken — several if this is necessary — corn, sugar coffee, potatoes, cranberry sauce, salt, canned fruit and vegetables, syrup, margarine, head lettuce, tomatoes, canned pumpkin and other staples. That's not all.

New toys will be included for all members of family groups not over four in number.

The Catholic Charities, a spokesman reported today, plan to distribute "between 50 and

60" Christmas baskets within the Quad-Cities next Wednesday and Thursday.

Additionally, the U. S. Army Transport Command at St. Louis has gotten from the welfare agency a list of 50 deserving, needy families in the area the military installation will furnish Yule baskets.

Toys, sports equipment, games, playthings, dolls and children's books will add their weight and cheer to the baskets of Catholic Charities.

Friday, Dec. 23, will be distribution day for the Christmas baskets issued by the Protestant Welfare Association, Inc. This week, Tri-Hi-Y girls were at work at St. John's United Church of Christ basement, filling these baskets, numbering over 100. These, too, are freighted with toys.

Other Organizations Christmas time giving is no less the extent of giving by the Protestant Welfare and Catholic Charities, it must be pointed out.

Year-round gifts of clothing to the needy, poor, shut-ins and unemployed are made by these church organizations.

The Tri-Cities Red Cross Chapter will give Christmas baskets to area servicemen's families in need of this Yule season boon.

And this is not all of the outpourings of Christmas baskets. To enumerate a few, and by no means an all-inclusive list of donors, there's the A. O. Smith Corp. inspection department second shift baskets; those of the Armvets of the Pontoon Beach area; both to be distributed through the Salvation Army, as well as un-numbered churches, lodges, service clubs and individuals.

Sorority Assisting Hope School For Blind

Office secretaries, career girls, young mothers and receptionists who are members of the area chapters of Beta Sigma Phi sorority have been active on a number of fronts during the year to raise funds for the Hope school at Springfield.

It is an institution for blind children who suffer additional handicaps such as mental retardation, cerebral palsy, speech defects and other crippling diseases or ailments.

Last night, at a gathering at the YMCA, members of the sorority learned more of the scope, program, goals and needs of the Springfield school. Speakers were Mrs. Maryann Ream, secretary of the board, and Mrs. Gertrude Fallon, executive secretary of Hope School.

Presently housed in temporary quarters, pupils at the school are in need of better accommodations, they said, and for this financial aid is needed. The school, they pointed out, is the only one of its kind in the midwest, dealing with children who are not acceptable in the state and private schools for the blind.

Members of the sorority, a spokesman said today, have conducted numerous activities and affairs to raise money for the school for the blind and additionally handicapped. They plan a trip to Springfield better to inform themselves on the work project there, and to make their contributions to its program.

Cloverview Club Yule Party

Officers of the Cloverview Garden Club, Mrs. William Ogden, Mrs. Leo Roman, Mrs. John Wilson, Mrs. Vincent Lisc and Mrs. B. C. O'Neill, with Mrs. Wilson as chairman, were hostesses to the club at a party Tuesday afternoon at The Prime Steer on Hi-Ways 40-40 in St. Louis.

Luncheon was served at 12:30 at tables gay with the seasons colors and decorations and after the meal Mrs. Noel Spanghel, of Bellevue, entertained the group with a colorful demonstration of Christmas decorating and gift wrapping.

NEW GLENVIEW DRAINAGE LINE is being installed to connect existing storm sewers with the levee district ditch. Expansion of the trunk line was made necessary by growth

of the residential area. Some of the new homes are visible in the background as workmen place initial sections of the new pipe near the western end of Terminal avenue.

CONTRAST IN WIDTH and surface is evident in this view of the eastern end of the newly-repaved county-area section of West Pontoon road. Immediately beyond the four-lane concrete pavement is the two-lane part of West

pontoon located within the city limits. The Granite City council plans to seek right-of-way and county financial aid for extending the wider roadway to Nameoki road.

State Approval For GC Schools

"You are on the move toward an improved program for the 60's," Guy E. Cornwell, first assistant Illinois superintendent of public instruction, wrote to Supt. Harold M. Kaiser following inspection of Granite City schools early this month. It was reported at Tuesday night's school board meeting.

"There is much evidence of fine administrative leadership in Granite City," Cornwell said. Detailed reports of the state's findings are to be forwarded later. Dr. Kaiser summarized the verbal comments, and said emphasis was placed on continuing newly-established programs here and on taking steps to handle larger enrollments.

Continuing to replace faculty vacancies resulting from maternity, the board hired Miss Judy Ann Craig, Route Two, Newton, Ill., who has a 1960 bachelor degree from Eastern Illinois University, to teach biology (English and social studies) classes at Coolidge junior high and Mrs. Marilyn Barry, Park

Forest, Ill., former Granite City teacher who has a 1959 master degree from Southern Illinois University, as girls' counselor at Prather junior high.

Mrs. Josephine Wagner, Marshall school teacher, was granted a leave of absence.

The board discussed possible revamping of the present school insurance program and scheduled a further discussion and possible vote for the next meeting on Jan. 10. The Dec. 27 meeting was eliminated.

Dr. Kaiser distributed a newly-completed Granite City special education curriculum guide, and said copies are being given to local parent groups. The 80-page manual was prepared under the supervision of Dr. Kaiser and Special Education Director Harold V. Thomas.

Board Member Glenn Abernethy, who attended the 1960 state school-convention with Dr. Kaiser, reported high praise for the type of program being developed at Granite City high school to interest and stimulate students toward high achievements.

Night Lights For Schools: The board accepted a program under which night lighting will be supplied by the Illinois Power Co. at nine schools at a yearly cost of \$1460. They are Fro-

hardt, Logan, the Logan annex, Marshall, Nameoki, Niedringhaus, Washington, Webster and Stallings.

Taking advantage of lower school furniture costs at this time of year, the board considered bids and inspected samples, deciding to buy 250 pupil desks and chair units from Buxton and Skinner for \$3537 and 10 storage cabinets from Atlas Sales Co. for \$457.

Microscopes for grade schools were purchased from General Science Service Co. on its low bid of \$27 a unit, a total of \$674. The district will receive 48% of the cost from the federal government under the National Defense Education Act. The board purchased 5000 voucher checks from the Todd Co. for \$339.

Bills approved included a \$2868 payment to the Schlusser firm on accounting work for the township school treasurer. President Homer Huber and Herbert Bischoff voted against the payment, with favorable votes by Secretary Howard Kaseberg, Abernethy, Robert Spengler and Monroe Worthen. Payment was made following a reply from the firm to a board letter asking about increased costs.

Pair Denies Break-In At GC Cleaning Shop

Hearings are set for Jan. 6 for William E. Knicker, 30, of Grandin, Mo., and Dorothy Dukeman, 36, of 1225 Twenty-second street, who were charged Monday with receiving and concealing stolen goods on a war-cleaning shop. A small radio found in the apartment also was identified by the cleaning shop manager.

The Dukeman woman said she found the items in a tavern near Collinsville which she recently had purchased. Both she and Knicker denied any knowledge of the break-in. A small safe also was hauled away and ditched along Maryville road. She was freed Tuesday on \$2500 bond, and Knicker was sent to

the county jail after failing to post bond.

Chief of Detectives James R. Lowder said the pair was taken into custody following a routine check of license numbers on a parked car. He said the local apartment recently had been rented by Knicker.

SQUARE DANCE PROGRAM AT CREDIT UNION DINNER

Two dance squares of the Tadpole Squares gave an exhibition dance at the annual Christmas party and banquet of the Nickel Plate Railroad, Teachers Federation and Engineer Depot Credit Union, Monday evening at the officers' club of the depot.

The numbers were in keeping with the season. One group of boys and girls, dressed appropriately, did a "Rudolph, the Red Nose Reindeer" number. Included were Sherine Boyd, Evelyn Greene, Sally Barnett, Sue Barnett, Jimmy Greene, Ronnie Kibert, Dale Clinton and Bobby Burris.

A performance by an advanced group was entitled, "The Outlaws." This group presented difficult numbers, some unknown to other square dance teams. They were Suzann Boyd, Judy Sharp, Cheryl Brown, Paula Brown, Gary Greene, Jimmy Melton, Kenny Lawrence and Alan Grandford. Jill Rayburn and Shelly Rayburn did tap and acrobatic numbers which were worked into the other dance numbers. Attendance totaled 179 boys and girls and 48 parents. The children danced several squares, sang Christmas carols, with Mrs. Casey Lomax at the piano, played a number of games, at which 45 prizes were awarded, and held a gift exchange.

The American Legion Auxiliary, Unit 113, held a Christmas party last night with Mrs. Mary Batton, president of the group, and her staff of officers serving as hostesses. Guests were members of the Post President Parley.

A short business session preceded the party and plans were made for contributions to several Christmas projects.

A party will be given by the Auxiliary for patients at the

Alton State Hospital, and there will be a party at the Madison County Tuberculosis Sanatorium in Edwardsville, the latter event to take place Dec. 22. Shut-ins will be remembered during the holidays and announcement was made of the coming Madison-Board County meeting to take place here Dec. 21.

Entertainment included piano selections by Mrs. Gladys Willey of Australia who is here visiting her daughter, Mrs. Robert Keger, and guests. Prizes were awarded to Mrs. Loretta Goeller, Mrs. Ada Dishop, Mrs. Stella Kowalewicz, Mrs. Ella McKittick, Mrs. Lucille Cooper, Mrs. Millie Steiger and Mrs. Dolores Perrod.

Veeder Named To C. Of C. Executive Committee

Nicholas P. Veeder, president and chairman of the board of Granite City Steel Co., was elected a member of the executive committee of the Chamber of Commerce of Metropolitan St. Louis yesterday in St. Louis.

Kenton R. Cravens, president of Mercantile Trust Co., was re-elected chairman of the board of directors; Irving Edson, president of Edison Brothers Stores; and John H. Hayward of Reinholdt and Gardner were named vice-chairman and treasurer, respectively.

The board acted on the request of trustees and board members of the sanatorium committee.

Non-TB Patients To Get Use Of Sanatorium

The Madison county board of supervisors has approved use of some of the facilities of the Madison County Tuberculosis Sanatorium as a convalescent home for care of non-tubercular patients.

Action was taken Wednesday at the board session at Edwardsville. Due to reduction in the number of tubercular patients, there are facilities at the sanatorium for care of convalescents not suffering with tuberculosis.

The board acted on the request of trustees and board members of the sanatorium committee.

Record Mail Count Expected As Yule Cancellations Rise

Cancellation figures at Quind City area post offices, for a two-week period ending yesterday, have jumped far ahead of last year's count, due to an unexpected three-day surge of Christmas mailing, the postmasters said.

Total cancellations Monday were lagging behind the 1959 figure was 477,805.

The sudden increase has caused Granite City postmaster Theodore Overbeck to revise an earlier prediction, in which he felt no records would be broken. "Cancellations will run ahead of last year from the looks of things," Overbeck said.

Granite City's 14-day count this year is 546,549. The 1959 figure was 477,805. The big mailing rush will be on beginning tomorrow and will run through Tuesday, Overbeck said. From 50 to 75 temporary employees are expected to be added to the force during this period. A total of 25 have been hired already, and seven additional parcel vehicles have been put into use.

In Madison, the rush began today, and eight new carriers and one vehicle were added. Madison's figures are running slightly ahead of last year, and stamp sales are staying about the same. The 1960 count for Madison in the two week period is 51,519. The 1959 total was 51,185.

Postmaster Harry Johnson, using stamp sales as a barometer to gauge his predictions, said he expects a record-breaking total.

At Venice, Postmaster Charles Simmons said his stamp sales are running parallel to last year, but total cancellations are "a little bit ahead."

To date, Venice has 10,656 cancellations, slightly better than last year. Exact figures for 1959 were not available. No temporary employees will be hired.

Tarpoft-Karandjef Hearing Underway

Resumed this week in the court house at Edwardsville was a hearing in the case of John Tarpoft vs. Henry D. Karandjef over the ownership of a building here in the 1300 block of Niedringhaus avenue.

Harry Tarpoft, master in chancery, is hearing testimony in the case which was returned to the circuit court following an appeal to the state Supreme Court on an earlier dismissal by the lower court.

The Supreme Court decided that only Tarpoft had presented testimony and that both sides should be heard. The hearing started Monday and is expected to continue through tomorrow with an adjournment then for presentation of further testimony. Karandjef, chairman of the board of the Granite City Trust Savings Bank, testified yesterday when the hearing was conducted in the grand jury room after being relocated there because of other use of the court room.

After hearing testimony, Tarpoft will present a report to the circuit court; and if it is approved, a decree will be handed down by the court.

Select Name For Son
Bruce Overton Wright Jr. is the name selected by Mr. and Mrs. Bruce O. Wright sr., 1808 Spring avenue, for their son born Dec. 5 at St. Elizabeth Hospital. The infant has a sister, Lisa Marie, two and one-half years old.

The sculptor of the recumbent marble statues of King Ferdinand and Queen Isabella in the Cathedral of Granada in Spain had a subtle way of showing that the queen was the more intelligent. There is a deeper depression in the pillow on which her head rests, indicating a greater brain.

You can steam a whole fish in the oven. Place the fish on a rack in a roasting pan; add hot water but don't have it touch the fish. Cover the pan and steam until the fish flakes easily, using moderate oven heat.

James J. Byrne, an official of the U. S. Forest Service, predicts helicopters and dirigibles will be used to get logs out of inaccessible areas and to reduce soil damage in logging mountain slides.

Smith Corp. Workers Fill Yule Baskets

A. O. Smith Corp. inspection department second shift employees are set to play Santa Claus for others.

Each of the 22 workers has contributed \$2 toward the purchase of Christmas baskets for the needy, wanting, unfortunate and over-sighted. These are to be distributed through the Salvation Army.

Staple, foodstuffs along with holiday specials for the baskets are being purchased at wholesale prices, and the Smith employees hope to be able to fill about eight baskets to add their mite to making the holidays happier for others.

Jewell Walker heads up the informal organization of second shift workers, and said today he hopes that such a plan will be adopted by other industrial employees groups.

Rotarians Hear Talk On Underground Storage

The Granite City Rotary Club at its noon meeting Monday was presented with an illustrated talk on the latest methods of underground butane storage.

A. L. Calcester, project engineer of Shell Oil Refinery, Wood River, with the aid of slides, showed the interior of a 400-foot deep storage cavern, completed last summer.

The engineer said the present storage area has proven so successful that the firm now is making plans to prepare another cavern for storage of propane gas.

About 50 members observed the talk. Ralph Morris was program chairman.

In other business, the club discussed the annual Christmas program to be held next Tuesday during a luncheon meeting at the YMCA. Wives of the members will be invited and the Glee Club of Granite City high school will provide entertainment.

Two Boys Treated At St. Elizabeth Hospital

Two boys were given emergency treatment Monday evening at St. Elizabeth Hospital. Bryon Denny 2 1/2, son of Donald Denny, 2854 East 24th street, required three stitches to close a cut to his upper lip, suffered when he struck the dashboard of an automobile; and Michael Parks, 12, son of Alonzo Parks, 2917 Maryville road, had a small piece of pencil lead removed from his left hand.

Granite City PRESS-RECORD Page 28 Thurs., Dec. 15, 1960

There were the Christmas cards and gift packages to be addressed and mailed to relatives, to friends and neighbors; the tree to be bought; last year's ornaments and lights had to be gotten out of the attic or bureau drawers, and thoughts given to the Christmas dinner.

The latter entailed a trip to the grocer, and the shopping lists included such holiday "musts" as nuts, hard candies, fruits and the festive fowl.

Home Decorating. Additionally, homeowners who follow the seasonal practice of decking out their homes in Christmas array—inside and out—got the decorating underway. Then there was the matter of securing gifts in the yearly hide-and-seek precedent to Christmas eve.

Merchants' shelves, counters and display windows held a veritable treasure-trove of gifts. There were the practical items of wearing apparel and standard accessories, novelties, jewelry, tobacco, liquors, sports equipment, furs, a galaxy of toys, myriads of gadgets and games.

There were lists to meet the wishes and requirements of all Christmas lists, however varied or demanding.

Merchants' stores, continuing the holiday shopping hours, remain open until 8:30 tonight and Friday, and Monday through Friday next week. Next Saturday, they close at 6 p.m., close at 5 p.m. on Christmas eve, closing will be even earlier.

Santa Still Taking Lists. Santa Claus' Granite City headquarters continued to be the magnet for the small fry and teenagers. His Log Cabin on Edison avenue off 19th street remains open until 8:30 tonight. Friday's hours are from 10 a.m. to 8:30 p.m.; Saturday from 10 a.m. to 6 p.m.

Next week, due to the schools' Yule recess, Santa will receive his guests from 2 to 8:30 p.m. on Monday and Tuesday. However, on Wednesday, Thursday and Friday, Dec. 21, 22 and 23, the bewhiskered old gentleman will be "at home" from 9 a.m. to 8:30 p.m.

Announcement of the four bicycles he will give away will be made in the Press-Record a week from today.

And Santa was not alone in lending the Granite City street some of the attributes of the onrushing holiday, most glad some day of the Christian calendar.

Streets are garlanded with silvered cross-branches with lights, bells and bangles; the hymns, anthems and canticles of the season sound out loud and clear over amplifiers; and decorated trees are to be found dotting the down-town setting.

Buildings are "topped" with strands of colored lights and illuminated "spectaculars, and another Christmas touch, the Salvation Army bellringers, tingling their appeal for coins for the Christmas basket kettle.

Quad-Cityans Come Up, Full Speed

On many fronts, Quad-Cityans this week were "knee deep" in happy albeit somewhat harried preparations for Christmas—and a glance at the calendar today showed they had but nine short days remaining to complete all preparations.

These included completion of the rounds of Yule gift shopping—and there was a pell mell rush to stores, shops and many another retail outlet.

There were the Christmas cards and gift packages to be addressed and mailed to relatives, to friends and neighbors; the tree to be bought; last year's ornaments and lights had to be gotten out of the attic or bureau drawers, and thoughts given to the Christmas dinner.

Buildings are "topped" with strands of colored lights and illuminated "spectaculars, and another Christmas touch, the Salvation Army bellringers, tingling their appeal for coins for the Christmas basket kettle.

Madison avenue sets an appropriate background for the seasonal activities there. Venice's

city hall sports a 40-foot, illuminated Christmas tree, and the elaborate public library has an elaborate Nativity scene, complete with figures of Shepherds, the Wise Men, Mary, Joseph, the Christ Child and animals of the Inn at Bethlehem.

Other creches are to be found in churches, homes and public centers, and an informal count shows that at least 35 Santa's are dominating the scene in banks, stores, shops and service establishments in the Quad-Cities.

Parties Increasing. There are Christmas parties in wholesale on the calendars of the big industrial plants, four of the office forces of many establishments, agencies and public bureau and departments; some already held, others on the upcoming calendar.

Because Christmas is the season of Goodwill To Men and a happy one, choral and caroling groups are "tuning up" for their rounds of singing. The old yet ever new songs of the season will be brought to the light, the shut-ins, to the invalided and to

the neglected in the Quad-Cities. So that none is overlooked, the Salvation Army, the Protestant Welfare Association, Catholic Churches and numerous other groups, clubs, organizations and individuals are distributing Christmas baskets, clothing, toys, goodies and special treats. This will be next week.

Churches are readying plans to tell in song and story the Biblical events of Bethlehem of nearly 2000 years ago, and have choristers will embellish the programs with glorious music that has come down through the years.

Stores, service clubs and individual entrepreneurs selling Christmas trees report a "brisk" business. Scores of cars, homebound with the Yule tree, are to be seen on the streets of the Quad-Cities. Tree lights are in heavy demand, and so are trimmings.

So, "deck the halls with boughs of holly," it's the season to be jolly. And for young and old, for the shut-ins, those in want and those in plenty, Christmas '60 looms as a merry one.

Gate On Main Lock Ready For River Dam. Modification work on the upstream gates at the main lock at the Chain of Rocks canal has been completed, and a similar project was started yesterday at the auxiliary lock, Lockmaster Roy Elliott, said.

Strengthening the upstream gates is required because of construction of the low water dam across the Mississippi River a short distance below the mouth of the canal. Lockmaster Elliott explained that the water level in the canal will be raised once the dam is completed and the weight and pressure against the upstream gates will be greater.

The gates are being reinforced with heavy timbers and steel, and while the locks are drained, maintenance and repairs are being carried out on the downstream gates.

The 1200-foot main lock, largest of its type in the western hemisphere, has been refilled and is in operation, and the smaller 600-foot auxiliary lock is drained for the contractor to begin work which is expected to take several weeks to complete.

The locks area is closed to visitors while the construction work is underway.

Medical Society Elects. An Edwardsville physician, Dr. Jerre C. Collins, has been elected president of the Madison County Medical Society, succeeding Dr. Benjamin B. Bernan, local pediatrician, to the office. The election was held during a recent meeting of the society at East Alton.

John Sekora Named To College Who's Who

John Sekora, son of Mrs. George Sekora, 805 Iowa street, Madison, was one of 22 Bradley seniors recently accorded membership in "Who's Who Among Students in American Colleges and Universities," believed by many to be the highest single honor a college student can attain.

The 21-year-old English major is currently the top-ranking student in the Peoria school with a 7.87 average out of 8.00. He is a member of two national leadership-scholarship honorary fraternities, Omicron Delta Kappa and Phi Eta Sigma. A former resident advisor in the men's residence halls, he is also a member of the Bradley Federation of Scholars, the Young Democrats, the Review Society and Sigma Delta Chi.

Sekora looked toward a career in either newspaper work or college teaching. He was a student reporter at the Press-Record during the past summer.

Reinhardt Is Independent Insurance Agents' Prexy

Michael Reinhardt, Granite City underwriter, was elected president of the Tri-Cities Independent Insurance Agents at a meeting Monday at the Elks' club.

Other officers of the independent general agents organization were elected and there was a talk by Winston Brown, St. Louis, on the new safe drivers' special automobile insurance policies.

At the same time, the agents issued a holiday warning regarding Christmas time home fires and highway accidents, and urged precautionary measures to hold down fatalities.

A. H. Gehlert was elected vice-president of the Tri-City Independent Agents; Robert Roulund, secretary-treasurer; and Wesley Benett, Herman R. Mueller and Travis Getlin named to the board of directors. All are from Granite City.

In his "holiday caution" release, the Tri-Cities underwriters noted that "more than 1000 American homes last year had their Christmas spoiled by fires starting in Christmas trees and decorations."

6 Quad-Cityans File Bankruptcy Petitions

Bankruptcy petitions were filed in Springfield with the U. S. referee in bankruptcy for six Quad-Cityans, it was learned this week at the office of the Associated Retailers & Civic Association.

Those for whom the petitions were filed were Mildred Adams, 2230 Benton street, Chester; Wayne Jones, 3024 Circle drive; James Henry Murphy, Rural Route One, and Harry Paul Jones, 4503 Kirkpatrick Homes, all of Granite City; Kenneth Eugene Childers, 804 Iowa street, Madison; and Vernon Lloyd O'Dell, 222 Kerr street, Venice.

GO GO GO FOR LITTLE JOE

It added that "many tragic accidents occurred during the festive season last year."

To cut down the tolls, the insurance writers set out six danger points to keep in mind. They are:

"Watch that your Christmas tree wiring isn't overloaded; use only lighting sets having a UL (Underwriters' Laboratories) label."

"Dispose of loose Christmas wrappings after packages are unwrapped."

"Be certain that your Christmas tree is fresh-cut, well-supported and its base kept in water."

"Remember that the recipe for a tragic Christmas or New Year's traffic accident often included drinking before driving; snow-covered windshield; ice roads; tired drivers or a combination of these. Avoid these factors and have a safer holiday."

The independent underwriters reminded Quad-Cityans that last year 106 persons died from fire and 1160 persons were killed in auto accidents occurring during the Christmas and New Year holidays.

Judges Named For Jaycees, IP Home Lighting Contest

Judges who will select the 1960 "Creative Christmas Lighting Contest" and award eight cash prizes totaling \$300, were announced today.

They are Donald Mega, chairman, and Paul Ziegler and Larry Holder, of the Granite City Junior Chamber of Commerce, who were appointed by the organization to handle details of the yearly event.

Judging will be Dec. 22 and 23, and Mega, who heads the Jaycees' "Lighting Contest" committee counted about 25 entries received up to this morning. He said they were coming in daily and predicted something akin to a "deluge" prior to the entry deadline.

Sponsored by the Granite City Junior Chamber of Commerce in conjunction with the Illinois Power Co., the 10th yearly homeowners' residential light-up, dress-up contest is open to all Granite Cityans who indicate their desire to compete by filling in an entry form.

Deadline Next Wednesday
Deadline for getting in the entries is midnight next Wednesday. Only homeowners submitting entry forms will be eligible to compete.

Entry blanks may be secured at the office of the Illinois Power Co., Reese drug store, Graham's book store, Woolworth's, the Tri-City grocery at the Belmore Village shopping center and the A&P Market.

Mega, asked today that entry forms be filled in as soon as possible. They should be mailed to the Granite City Junior Chamber of Commerce, Postoffice Box 3, Granite City, Ill.

Illustrated booklets, making suggestions as to Christmas home lighting and decorating are available at the Illinois Power Co., Niedringhaus and Delmar avenues. It was pointed out today. These brochures show residential, outdoor lighting possibilities along with scenes of decorations. They are available to all contestants.

Judging will be on next Thursday and Friday, Dec. 22 and 23, when the judges will select the winners.

First prize in this year's contest is \$75 in cash. Second place winner will receive \$50, and \$25 will go to the residence adjudged third best.

Additionally, there will be five honorable mention cash awards, each of \$10, for runner-up in the contest.

Entries will be judged on originality, ingenuity and inventiveness of lighting and decorating. Over the past years, hundreds of homes have made the holiday setting brighter and more glamorous through the contest, open only to Granite City homeowners.

Cash awards are given by the Illinois Power Co. in a move to further the bright-up motif of the Yuletide.

Looting of Downtown Meters Continues

Looting of downtown parking meters in Granite City is continuing according to reports at police headquarters. Police Chief Raymond Willard said about 12 meters have been forced open and the coin boxes rifled in the past two weeks.

On Tuesday morning, two meters in the 1800 block of Delmar avenue were broken open. The empty coin boxes were found in the alley between Delmar and Cleveland blvd.

Schueren reported, Tuesday that a light blue wheel with a red stripe and a tire had been stolen off his 1954 station wagon and replaced with an old wheel and tire. He told police the theft occurred in the past two weeks.

CANNING EQUIPMENT set into place at the new Royal Crown Cola Co. manufacturing center includes this cruet mechanism where cans will be filled with soft drinks. The industry's most modern and highest-production-capacity canning line is planned.

INSTALLATION WORK is shown in progress at the new Royal Crown Cola Co. plant here. An adjustment is being made on equipment that will assemble and fill 12-ounce cans containing such beverages as RC Cola, Nehi and Far-T-Pak.

RC Cola Plant Plans Initial Production During February

A tentative opening time of early February has been set for the new Royal Crown Cola Co. manufacturing center located off Route 67a south of the A. O. Smith Corp.

In reporting progress in establishment of the new plant, Rabin Phillips, manager, told the Press-Record this week that initial testing and production are expected to take place in late January or in February, with the formal opening occurring in the spring, probably April or May.

Hidden behind the walls of the large structure—where from the outside appears nearly completed—work is proceeding on installation of high-speed canning equipment.

Containing 40,000 square feet of floor space, the brick and concrete building was constructed this summer and fall by the Tom Studebaker Construction Co., which also is handling the equipment work.

Equipment still arriving. While the construction is considered to be virtually complete, some doors and openings are to be made smaller and finished after the last of the large pieces of equipment has been brought inside, Studebaker explained.

Much of the plant interior appears unfinished, but this is because an extensive area will be used for storage, Manager Phillips explained.

Granite City PRESS-RECORD
Page 32 Thurs., Dec. 15, 1960

Explained, he and the plant superintendent Grady Tolson, have been transferred here from Columbus, Ga., where the Royal Crown Cola headquarters are located.

About equal emphasis will be placed locally on the two major phases of the plant—production of 12-ounce cans filled with soft drinks for shipment to an estimated 40 or 50 bottlers in the Midwest, and production of five- or six-ounce cans for shipment to bottlers in the western two-thirds of the United States.

The canning operation will dovetail with similar production at Chicago, Bridgeport, Pa., Billings, Mont., Fort Worth, Tex., and Columbus, Ga. The exact area to be assigned to the Granite City plant will depend partly on freight rates.

One Of Two Concentrate Plants. As only the second flavor concentrate producer, the other being located in Columbus, the new plant is expected to handle about one-third of this activity.

While its geographical area will be larger than that assigned to the main plant, the product has been built up to a greater extent in the South and East than in the remainder of the country.

The canning operation planned here will be the fastest of any plant in the United States for soft drink products. Some beer production lines are faster, but carbonated beverages have required different techniques.

In announcing plans for the new manufacturing center last January, W. H. Glenn, Royal Crown Cola Co. president, commented that "the new plant in Granite City is being built to expand the company's production facilities to meet the continuing increase in consumer demand for RC and Nehi products, and to better serve the company's midwest and west coast bottlers."

Initial plans for the plant were prepared under supervision of W. T. Miller, RC Cola vice-president of production.

SIU Entrance Requirements Tightened Again

Southern Illinois University has tightened entrance requirements for the second time in a year, it was announced this week.

Effective with the next fall term, high school graduates ranking in the bottom third of their graduating classes will be permitted to enter on academic probation—only during the winter, spring and summer quarters. Only if they show high scores on the SIU entrance examinations will they be admitted during the fall quarter.

Requirements will be even stricter for out-of-state students. All those in the lower half of their high school graduating classes must defer registration until the winter, spring or summer quarters unless they achieve top entrance test scores. The deferred entries also will be placed on academic probation.

In announcing the more rigid policy, the SIU board of trustees said it would "improve the quality of our student body and spread the enrollment more evenly throughout the year."

The board said the out-of-state clamp-down would encourage a desirable number of superior non-residents, but would tend to discourage weak or undesirable students from other states.

Entrance restrictions covering high school graduates in the bottom fourth of their classes went into effect this fall.

SUH OK JIN, the Korean orphan who is the adopted daughter of the YMCA Teen Town Council, sketched this line drawing of a young Korean girl opening a Christmas box containing a doll. The sketch, along with a letter of hearty thanks and other remembrances were sent to the Council from Seoul by Suh Ok Jin or "Susie."

Teen Council's 'Ward' In Yule Letter of Gratitude

The Teen Town Council has received a letter something of the nature of a Christmas note to Santa Claus.

And this is altogether fitting since the YMCA youth group cabinet must project a Santa Claus image in the eyes of a 14-year-old Korean orphan, the Council's adopted daughter.

Suh Ok Jin from far-distant Seoul has sent her "foster parents" a holiday season letter expressing her grateful thanks along with Christmas cards and a photograph.

Suh Ok Jin or "Susie," who lives at Mei Sil Whol an orphan's school and home operated by the Christian Children's Fund, Inc., is a ward of the council, the representative body of some 500 Quad-Cities youth people who enjoy the association, recreational facilities, benefits and activities program of the YMCA.

Acting as the agency for all Y teen-age groups and individuals, the Council adopted Suh Ok Jin and assumed responsibility for at least part of her maintenance and education.

\$120 Annually

Annually for the past three years, the council has sent \$120 to her orphan of the Orient.

Additionally there are Christmas gift packages and those sent to the young people's ward on other special occasions, notably her birthday.

Miss Patricia Mega, YMCA youth counselor-director said today that this year's Christmas box for "Susie" contained two sweaters, a knitted headpiece, a pearl locket and other items of wearing apparel and adornment.

The Christian Children's Fund, with U. S. headquarters at Richmond, Va., operates the school-home for Korean orphans at the Korean capital city.

In her letter to the Council, written in Korean, which resembles both Japanese and Chinese, Suh Ok Jin says in part:

"In your concern I am studying hard. I am much interested in reading a book. We had a big storm this summer. And when we collected money for the sufferers of the storm. At the school some students collected

money from them on the streets, and as one of some students, I did my best.

"I am going to attend the English story content at school. I am practicing it hard to gain a good grade. I am waiting for the joyful Christmas, counting my fingers. And I am planning many interesting programs for the Christmas season."

"I am sending my Christmas card, which I drew by myself, to wish you a Merry Christmas. I do hope you are glad to receive it. The enclosed card shows a girl who is surprised to find such a nice doll in the box. She wears our own dress."

Sends Greetings

"After I have studied hard, I will make you happy. I wish I could enjoy Christmas with you and your families. I am really glad to write to you at this joyful Christmas season. I wish you a Merry Christmas and a Happy New Year."

Because she and the Children's society realized her American foster-parents couldn't read the original, there was an accompanying translation.

In her Yuletide "thank you" and greetings, the Korean orphan added a line-drawing of a young girl with a doll—Susie's own artwork.

And there was a pictorial card to her sponsors, depicting a Bethlehem star and a grouping of children of many lands and races. Additionally, Susie enclosed a snap shot of a school sports event complete with cheer-leaders in Korean dress.

The ward said that one of the games held at the institution resembled those of American children of similar age levels.

Miss Mega says the council plans to continue its "sponsorship" of Susie with a contribution in 1961. "It is a rewarding venture," she summed up.

3 Yule Parties

General Steel Castings Corp. will sponsor three Christmas parties Saturday for employees and their families.

Welfare of Public Should Be Basis For Levee Law Changes

Quad-Cityans have had little participation or contact with the political warfare of neighboring St. Clair county. Yet this power struggle appears to be at the root of the present move toward re-vamping state laws governing the East Side Levee and Sanitary district, and such changes could greatly affect this community.

With the newly-elected board giving signs that it will switch from one faction to the other, jeopardizing part of the entrenched group's patronage, a longtime levee attorney suggests putting the present board members out of office. This would be accomplished by having all trustee positions filled by the new governor, with whom the incumbent group has closer ties than its opponents. There is some question whether this could actually go into effect immediately or would await the completion of the trustees' four-year terms.

On the surface, the ouster plan might appeal to Madison county residents, who have been shut out of representation on the five-member board although they pay 41% of the bills. But the proposal includes later establishment of a ward system that might guarantee Madison county one position but might also prevent it from ever gaining any of the other four posts. The interim plan for appointments also could subject the district to sweeping personnel changes with each gubernatorial election, hardly conducive to efficiency.

The plan for proportional representation, at least two from Madison county, backed by State Representatives Harris, Smith and Simon, is a good one and should not be set aside unless a clearly superior proposal is developed. Revision of the levee district laws should be based on the long-range welfare of voters and property owners, not on temporary political considerations or conflicts.

Progress does not come by itself; like genius, it is made.

Bill of Rights Anniversary Marks Safeguarding of Justice, Security

Although not generally celebrated, today is the anniversary of an important date in United States history, Dec. 15, 1791. It was on this day that the nation ratified the Bill of Rights, consisting of ten amendments to the U. S. Constitution.

The Constitution itself was an important and history-making document, but it gave Congress powers that were too large and indefinite, leaving loopholes in the mechanism created to safeguard the freedoms so newly won.

The first ten amendments largely remedied the Constitutional flaws. They guaranteed freedom of religion, speech, the press, peaceable assembly and redress of grievances with the government. People were given the right to bear arms, plus assurance against unreasonable search and seizure or quartering of soldiers in their homes without their consent.

One of the amendments stipulated grand jury indictments, barred double jeopardy for the same offense, guaranteed due process of law and compensation for condemned property and added the right that has since made the fifth amendment the best known—a defendant need not be a witness against himself in a criminal case.

Another amendment guaranteed speedy and public trial by jury, information on the charges, confrontation of witnesses and the right to defense counsel and witnesses. Still another provided for juries in civil suits. Others outlawed excessive bail, fines and punishment, delegated all other powers to the states or the people and stated that the enumeration of rights did not deny other rights not listed.

Twelve other amendments have since been approved by two-thirds of the House and Senate and three-fourths of the states, the last in 1951 when presidents were limited to two terms. But the first ten were vital to the preservation of liberty in the infant nation that is now the chief bulwark for freedom throughout the world. Bill of Rights Day will be long remembered for its contributions to justice and personal security.

'Tree of Lights' Gifts Help Families Most in Need of Aid

With Christmas fast approaching, time is running out with the Salvation Army "Tree of Lights" drive goal still not attained. Over 400 requests have been received for food baskets, and the full quota of \$4500 will be needed.

The program affords an opportunity to share with others during the holiday season, in the knowledge that all funds contributed will go directly to aid the local families most in need of assistance. It is the major public phase of the widespread holiday generosity here that traditionally includes Madison and Venice police treats and food baskets and gifts by countless church, civic and other groups.

Usually a festive time, the holidays can be sad for people who are in need. Gifts to the fund can light the Salvation Army tree and also help make this Christmas brighter and happier for many Quad-Cityans.

Who remembers the man who sold that nobody but fools would ever fly?

Quad-Cities Among Fastest Growing in Illinois Metropolitan Area

Final 1960 census figures spotlight two sections of rapid basic growth in the Illinois Metropolitan Area. Granite City in Madison county and Cahokia in St. Clair county, Granite City's total has risen by over 36%, 29,465 to 40,073, while Cahokia has mushroomed from 794 ten years ago to 15,829.

Generally smaller gains have been recorded in other cities in this area, and some have had losses, including Madison, Venice and East St. Louis. St. Louis and Chicago have suffered even larger decreases, reflecting the continuing exodus to the suburbs and the difficulty in maintaining or bolstering population when cities cannot expand outward.

To some extent, the gain in inhabitants here and in Cahokia is a part of the same fringe-area development that has had a major effect in St. Louis county. But Illinois has many aspects that recommend it to new residents, and the Quad-Cities have much to offer in employment opportunities and attractive neighborhoods. And the growth on the eastern edge of the Quad-City incorporated area has included children of Granite City, Madison and Venice families seeking newer sections in which to settle.

Truly, the Quad-Cities have many ties that weld them into a single community, and all need each other's cooperation, as displayed in the joint development of port facilities at the Chain of Rocks Canal harbor.

The growth trend underlines the farsightedness of officials and citizens who brought about the Nameski-Granite City annexation. With little industrial property to help shoulder the tax burden, the smaller city would have faced impossible financial challenges as its population soared, for most residential additions do not produce enough tax revenue to offset the cost of extending municipal services.

Both Madison and Venice have comparatively attractive tax bases, plus the added fiscal aid of city-owned bridges, and their finances are far from the crisis stage. But someday, for the good of all, we hope and expect the Quad-Cities to become a single city. Even the present 52,314 population of the three cities or the 65,000 within the Quad-City area would be an impressive figure on the census rolls.

With modern rush and bustle, a vacation is getting to be a misnomer.

Eagles And Auxiliary To Aid Salvation Army Basket Drive

Both on the male and the dis-tuff side of the Fraternal Order of Eagles, Aerie 1126, are in joint effort to further the spirit of goodwill and of giving symbolized by the gladsome holidays ahead.

It is a two-pronged, all-out ac-tivity to make merrier the Christmaside of families of the unemployed, of those in need, the unfortunate and the desti-tute.

First off under the chairman-ship of St. Clair Shuppert, the Christmas side of families of the unemployed, of those in need, the unfortunate and the desti-tute.

He said he could not now esti-mate the number of cans the Eagles will turn over to the Salvation Army. A careful check will be made this weekend.

Auxiliary Toy Collection

And the Eagles' Auxiliary got into the act Tuesday night at their Christmas party at the lodge rooms at 2538 Madison avenue.

Instead of exchanging gifts, as is the practice, each brought toys which will be added to the Salvation Army's Christmas bas-ket drive.

Something like 200 toys, games, dolls and playthings were, in consequence, to be added to the Yule baskets.

QUESTIONS PARK DISTRICT SPONSORSHIP OF TEAM

To the Editor:

In a recent issue of the Press-Record an article in the sport section announced a park district decision to allow \$1800 of park district funds for the support of a "top-notch" football team. I would like to express a vigorous protest to the assignment of park district funds to subsidize an athletic team. This seems to me to set a new and undesirable precedent not in keeping with our customs and traditions.

What is wrong with supporting such a team with funds from local merchants and enterprises—based on an advertising return? Isn't this the usual practice and our traditional way? Is it proper to advertise a public park with a football team supported by public funds? Does our park district need such advertising?

In my opinion the proper use of park district funds should be limited to the support of recreational facilities to be used by all of the public and not for the promotion of a "top-notch" team.

Our park district is not overflowing with funds. The \$1800 could be well used to clear the many unsightly and hazardous stumps throughout the park and for financing better forestry practices to avoid such valuable and numerous tree losses in the future. The new neighborhood playgrounds could certainly use more facilities and better landscaping. Lights for the tennis courts would be an investment that would allow adult tennis players an opportunity for after work exercise similar to that offered to those who play softball.

Perhaps there is more justification to this proposed subsidy for a particular team than I have been able to see. However, I would like to know what these arrangements might be. Some journalistic research and editorial comment on this subject might help clarify an appropriate policy on this matter.

Yours truly,
PUBICUS

GLAD SCHOOL WAS NAMED FOR MISS PRATHER

I have a little more to add to the history of Sophia Prather than has already been written. Nothing would have pleased that dear soul more than to have a school named for her and I, as an older resident, that the ladies already paying tribute to her memory in Monday's paper am so pleased that her name will be perpetuated in generations to come.

One item of great importance, at least to those of us who were reared in Lincoln Place is the fact that Miss Prather was the one who changed or was instrumental in having that section of Lincoln Place changed to "Lincoln Place." It had been originally "Hungary Hollow" because of the predominant nationality, then "Hungry Hollow" and "Hinky Hollow." She sensed the name last used and, inasmuch as the students at Washington School, where she taught, were her best students and graduated as the best students, she took much pleasure in changing the name. She was proud of her foreign students and could well be likened to Lincoln himself because she was determined to "emancipate" the name from its previous and un-American branding.

The dates given in the articles are 1922; however, Miss Prather came to the old club house in 1918. I taught Sunday school, even though only a child myself, was a charter member of the Girl Reserves and helped in many activities. I remember when Mr. Arthur Moxey and Mr. Clarence Howard of the old Commonwealth School came back from Europe with a doll for every little girl in Lincoln Place and a toy for every boy. Miss Prather, because my mother owned the building where the original "club house" stood.

The words are many that can be written about Sophia Prather, the teacher and the woman who seldom had to use on her Lincoln Place pupils because we learned early (second grade) that she was a disciplinarian.

even if we couldn't have pronounced nor spelled the word. She may well be proud of the boys and girls who passed through her years of devotion—we have not met her. And today I am personally happy that our school board and city have not failed her.

May her spirit guide the youngsters of the Prather Junior High toward high ideals and accomplishments.

URGES GO RESIDENTS TO THINK OF CITY EXPENSES

Well tax payers, it's happening again. We admit we were asleep to let our city spend the amount of money on our fire house. But what about the roofing on city hall. The previous roofing Co. offered to repair the leak if it is due to his work. But our councilman want a new roof. Do you think this is good judgment taxpayers? After all we are paying for this. Thru our taxes. The cost is \$6518 plus expenses. How far will these taxpayers go? Remember this and other things which were not in the election come up in April. We don't need city manager government, but we sure need a change in our present form of government. We can do this by getting out and voting for new laws which will be practicable about our tax money.

Are the streets to be repaired going by the priority which was going to determine which streets needed the most repairs?

PEARL HARBOR DAY BRING OUT THOUGHTS

Wednesday
Pearl Harbor Day, 1960
Granite City Press Record
Dear Corley:

Nineteen years ago today about noon we were listening to the radio when suddenly we heard a faint and confusing voice, telling us that Pearl Harbor was being attacked by Japanese air-craft. Keeping our ears cocked and our eyes glued to our radio, it took sometime before the confusing and exciting reports were confirmed and one was in a position to grasp the gravity of what had happened. We had to work that Sunday afternoon 3:00-11:00 shift and when entering the shop, our buddies got the surprise of their lives when told the sad news. One of them had served in the Hawaiian Islands in the armed forces about 12 years before.

But this is not the reason why we want to write this letter to you. It took sometime before the confusing and exciting reports were confirmed and one was in a position to grasp the gravity of what had happened. We had to work that Sunday afternoon 3:00-11:00 shift and when entering the shop, our buddies got the surprise of their lives when told the sad news. One of them had served in the Hawaiian Islands in the armed forces about 12 years before.

But our nation survived this attack blow and after four years of hardship, sweat and blood, the boys surviving the battles returned and our eyes glued to our radio, it took sometime before the confusing and exciting reports were confirmed and one was in a position to grasp the gravity of what had happened. We had to work that Sunday afternoon 3:00-11:00 shift and when entering the shop, our buddies got the surprise of their lives when told the sad news. One of them had served in the Hawaiian Islands in the armed forces about 12 years before.

When you open the clothes locker and see the things that you provided for him on his last Christmas before he passed to the Great Beyond and the hunting outfit that he always wanted and was provided with at the proper age when he was capable of handling them.

The basketball player board and cack where he played in the rear yard, the empty space at the table at meal time, that never ending smile. When he came home from school that missing buddy. That toiled by my side during school vacation and evenings after school and

There again was no distinction among those not coming back home again. They are buried.

Where? Somewhere, everywhere. Don't ask us, ask those who buried them, they know, at least they should know if they were buried in graves the colors of which was matching that of their skin. Were these graves white, black, brown, yellow, red or pink? Who knows, or who cares?

That, my fellow-citizen, was yesterday and so it would be again, today, tomorrow and ten or twenty years hence, regardless, of creed or color. Those little white, black, brown, yellow, red and pink kids will have forgotten that once upon a time adults spent on them when all they asked for was to learn and play with their kids. If their country, our country is in mortal danger, those children of today will forget that, at the age of five, they had to be escorted by police to be protected from attack and bodily harm, when all they were doing was going to school. The children of today had a constitutional right to learn, not only for their own good, but for the good of the country.

Yes, they would fight and die, again they would go to school, they would get together and be buried together, regardless of creed, color or race. Let us love our neighbor once for a change, not only white neighbor. It is written "Love thy enemy (not thy white enemy) do good unto those that hate thee. Is this so hard to do? This is our reaction to the news reports we are getting from parts of our country via television. These pictures are revolting and hurt the nation. Yes, we are of foreign birth and may have died here in concentration camps if it had not been our good fortune to be born in the twenties. We are against social injustice in any way, shape or form. Let us show the world and the face of the good American face, not this strange, foreign, ugly face as presented to the world today from our southern fellow citizens. This is not the true Americanism. The true Americanism is expressed by the inscription on the statue of liberty . . .

Let us read: "Give Your Hometown Your Hungry, Your Poor." Let us show the world this Americanism. It will bring us love and respect from the entire world. Let us make the color of a person's skin a certificate for good citizenship. Let us try at least. It will work.

Thank You,
JOE KEUENHOFF

READER SAYS CHRISTMAS CAN BE JOYFUL OR SAD
Joyful to those that still have their families intact.

But and to those who have lost cherished ones still in the teenage group that was deprived of the chance to live and enjoy the fruits of life and the joys of the future years of advanced manhood or womanhood.

No doubt facing from time to time the trials and tribulations of raising a family themselves.

At a mature age one by one your children enter the field of matrimony and establish homes for themselves, as time goes on they return with their children, you are happy the last has been turned and brings joy into the home.

But when your baby boy is snatched from you at near the age of 16 years, especially in the midst of the Christmas Holiday season, then to me Christmas is sad.

When you open the clothes locker and see the things that you provided for him on his last Christmas before he passed to the Great Beyond and the hunting outfit that he always wanted and was provided with at the proper age when he was capable of handling them.

The basketball player board and cack where he played in the rear yard, the empty space at the table at meal time, that never ending smile. When he came home from school that missing buddy. That toiled by my side during school vacation and evenings after school and

Busy Weekend In Store For Area's Prep Cagers--15 Games, 2 Tourneys

Which large school in the area boasts the best prep basketball record this week? You're wrong if you picked Collinsville.

The Kahoks are undefeated in three games but Alton's Redbirds, who have played only one game, have yet to be tested, have an unblemished 4-0 mark. This is the best among larger schools in the roundball season really gets rolling this weekend.

A total of 15 games, plus two pre-Christmas tournaments, will involve the 26 teams in this area. On tap are six important Southwestern conference games and the eight-team Madison-Bond-Clinton Counties conference game on Saturday, among others.

Local Tourney Favorites

Triad (6-0) is a heavy favorite to capture the MBC at Friday, which began last night and winds up Saturday evening. The Knights have the best record among smaller schools in the area.

In the Southwestern conference, Granite City (3-1) and Bellevue are idle, but will be preparing for play in one or more of several holiday tournaments

coming up during the high school Christmas vacation period.

Hospital Moving Day Reset For Monday

Moving day for the office staff at St. Elizabeth Hospital was postponed yesterday, and now is scheduled for next Monday.

The move was delayed due to minor adjustments and modifications to be made before the new 100-bed annex is to be occupied.

Hospital authorities said most of the work should be completed in time for the new wing, which includes the new main entrance and office, to be occupied next week.

Depend too much on the advice of your friends and you've found a way of losing your independence.

Art Classes Yule 'Gift' To Home Folks Has Record Crowd

The S.R.O. (Standing Room Only) sign was up long before curtain time Monday night at Granite City high auditorium where an overflow turn-out of more than 1000 was on hand for the annual demonstration-lecture-exhibit of Christmas gift wrapping techniques and decorative Christmas pieces.

The audience spilled over into the corridor and hall, and there were turn-aways, those unable to get a view of the stage freighted with its flocked centerpieces, mantle decorations, styrofoam silhouettes and parcels wrapped in imaginative and ingenious design.

Eugene L. Alaisi, public schools art supervisor, said Monday's audience set a new attendance record in the 14-year history of the "spectacular" presented as a Christmas gift to all Granite Cityans by students of art classes.

Early Arrivals
Some show-goers, he marked, arrived as early as 6 p.m., two hours ahead of show time, so as to insure good seats.

In addition to the stage with its colorful display of creative designs for holiday home decorating, there was a companion attraction eliciting much interest.

Debutantes, in formal dress, had their hair colored to match their gowns. Their coiffures were ornamented in the Christmas motif. This hair styling, Alaisi advised, was the work of a graduate student of his art classes.

Beer, Liquor, Soda Stolen From Home

Thieves carefully unscrewed an outside porch light before entering the home of Mrs. Mary Schmitt, 2907a Edwardsville road, to haul away cases of beer and soda Tuesday night.

The break-in was discovered about 11:50 p.m. by Mrs. Schmitt, who noticed the porch light was out and then found that a pane of glass in the door had been smashed.

Listed as missing were four cases of beer, eight cases of soda and a half-case of assorted liquor, along with an unknown quantity of canned beer.

Joins Retirement Fund

Madison Adopts Plumbing, Fire Codes, Parking Rules

In a spate of activity, the Madison city council Tuesday night approved new municipal plumbing and fire prevention codes, passed an all-embracing redefinition of city traffic rules and regulations, and ratified ordinances by which city employees will come under provisions and benefits of the Illinois municipal retirement fund.

There were no appearances for or against the several ordinances, which become effective on passage and publication. Nor was there council discussion, following the lengthy reading of the documents, introduced by First Ward Alderman John Br. Dick.

Usually rapid-paced and abbreviated, the council session covered a three-hour period. Participation in the retirement fund, it was pointed out, will be on a "matching money" basis, with assessments to be paid by both eligible individuals and the municipality. It will go into effect on Jan. 1.

Eligibility Requirement
Mayor Stephen A. Maerz said that participation in the state pension plan is mandatory for cities with populations of over 10,000. He explained that all Madison municipal employees who put in 600 or more work hours a year are eligible for the pension benefits.

The mayor recalled that action to insure city workers' benefits of the retirement plan had long been under consideration and discussion. He said Madison was not required by legislation to participate in the fund, but he believed great benefits would accrue as a result thereof. None now under retirement protection will lose any present rights or benefits, he emphasized. The city has participated in the social security program.

Additionally, he recited, there are provisions for others to join in the fund. Mayor Maerz was unable to give a definite figure as to the number of city employees who will come under the state retirement program.

In a companion ordinance, the council named City Comptroller Edward J. Miller as the city's "agent" in matters pertaining to the retirement fund. Naming of an agent, it was told, is required by law.

Plumbing Inspections

A new municipal official, a plumbing inspector, to be appointed by the mayor, is provided for in the city's new plumbing code.

It makes mandatory the registration of all plumbers who do work in Madison, and requires they give the inspector surety bonds for the faithful and regulation-abiding performance of their work.

The code requires all plumbers be licensed by the state. Work and installation permits will be issued by the inspector.

Madison's code is based on the Illinois State Plumbing Code, a lengthy document, and the state code was adopted by reference—i. e., without detailed reading—by the council.

Mayor Maerz is expected to name the new plumbing inspector early next year. It was believed he will be employed on a part-time basis.

Fire Code On File

The fire prevention code was similarly adopted by reference. It is based on the voluminous 1960 fire prevention code approved by the National Board of Fire Underwriters.

It is sweeping and detailed, and copies of the code are available at the office of the city clerk.

The fire protection code sets up a bureau of fire prevention, to be headed by a chief to be named by Fire Chief Edward J. Miller. The bureau chief will be charged with the duties of general public and residential inspection, and will work with and through the volunteer forces.

Among the numerous provisions of the fire code is that outlawing above-ground installations of tanks of flammable gases or oils. The exceptions are those already installed.

Atty. Austin Lewis, corporation counsel, read the ordinance revising and recodifying the fire rules, regulations and enforcement procedures.

Car Towing Plan
It prohibits all parking and authorizes the police chief temporarily to ban all traffic in specific streets in cases of emergency or other good cause. It restates the general rules of parallel and angle vehicular parking, sets out restrictions and restricted parking areas, and goes into detail as to cars stopping in bus zones or restricted areas to take on or let off passengers.

The police chief is empowered to designate an "auto impound," where illegally parked vehicles are to be taken by police, and it sets up a schedule of fines, fees and assessments for such impounding.

Cars held at the "pound" over a month may be sold at public sale after due notice is served on the owner.

The law covers breakdowns and other vehicular emergencies, and sets the spread of fines to be levied on traffic violations not involving personal injury from \$2 to \$200.

The recodified traffic regulations were passed unanimously.

Training Center Would Become SIU Property

A farming training center is being considered for the new university campus east of the Quad-Cities would become the university's property or could be removed when the lease expired if the university desired, SIU officials have explained.

The university is negotiating with the Tractor and Implement Division of the Ford Motor Co. on a cooperative approach to a new center to be established by the division, SIU Southwestern Campus land would be leased, with the likelihood that this acreage would be supplemented later through leasing of privately-owned lands.

Ford representatives have been considering sites in three midwestern states. A Ford spokesman reports that the land here meets the needs because it is a combination of bottom land and hilly acreage and is adjacent to growing corn and soybean farms. Improvements would include farm buildings, classrooms and other facilities for Ford trainees.

Another project under study for the new campus, construction of an FM radio station, could help provide a professional instructional program for students in the fields of speech.

theater, radio and television, it was reported by Clifton Cornwell, chairman of a faculty committee on mass communications.

Cornwell reported a growing demand for trained personnel in these fields, and said the station would enable university services to be extended in an area where 175,000 FM receivers are in use.

The educational station would be operated largely by students, and its output would be available to area commercial stations either directly or by tape recordings. A feasibility and engineering study currently is being made.
